August 7, 2017

## **SECOND ANNUAL MPC CONFERENCE TO BE HELD IN SAN JOSE, CALIFORNIA**

**Lewiston, Maine** – Compounding Solutions, the global leader in medical plastics compounding, has recently announced that they will be hosting their second annual MPC Conference on Tuesday December 5th, 2017 in the heart of Silicon Valley, San Jose, California.

The one-day long 2017 MPC Conference will be hosted at the San Jose Marriott in Downtown San Jose. This year's conference will feature an array of speakers on a wide range of topics targeted for medical device design engineers. This year's presenters will include experts in materials selection for various manufacturing processes & device applications, medical extrusion, device sterilization, and from equipment and resin manufacturers.

“Building off the success of last year's event, we look to continue to bring innovation concepts on medical plastics and compounds to our customers and suppliers. We are excited to bring this to Silicon Valley, a major medtech hub of the U.S. We look forward to everyone joining us.”, states Nathan Doyle, Sales & Marketing Manager for Compounding Solutions.

The first MPC conference was held in Minneapolis, Minnesota in September 2016 and received great reviews from attendees and speakers alike. Last year featured a full day of nine speakers and over 30 attendees from some of the major names in the global medical device industry.

Compounding Solutions created the MPC Conference in 2016 to target medical device design engineers with a technical conference to aid in the device design process at every stage.

### **About Compounding Solutions**

Compounding Solutions is an industry leader in producing quality specialty compounds for the medical device industry, a leader in technological advancement, and has a wealth of knowledge in materials selection and development.
