

Medical TPU Alloys

ReZalloy Rx low modulus TPU alloys, come in a hardness range of 35shA - 60shA with superior flexibility for compliant balloons, distal tips or other catheter segments.

Bondable to TPU, PEBA, PA12, PET

Low tackiness

High melt strength

Medical Grade SEBS TPE

The ReZilient Rx GP series are off the shelf TPE with a hardness range of 30shA to 90shA, making them a great material solution for strain reliefs and soft grip overmolds.

Bondable to polypropylene

Biocompatible

High elongation & excellent flexibility

Global Leader in Custom Thermoplastics

Compounding Solutions is a global leader in custom engineered thermoplastic compounds, color concentrates and additive masterbatches for medical applications. We produce compounds of the highest quality and consistency in our controlled production area and offer complimentary technical expertise, full regulatory support, and MOQs of just 1kg in an optimized process built for speed.
